

Hello! Anybody awake there?!? I guess Sinclair's gift to bush is payback for the favors you guys have given them.

Have you no sense of decency?

Don't forget, they are using the PUBLIC airways. I guess it's more important to you whether somebody uses a cuss word than whether a huge conglomerate abuses its PUBLIC air licenses in an effort to gain even more political influence.

But you know what? We are paying attention, and we are sick of the FCC's cowardliness. Get some spine. Let Sinclair know that unlimited free political ads for one party is NOT OK.

I look forward to reading about your actions in this matter.
